IN PUBLISHED EVERT WEDENESDAY MORNING AT Oskaloosa. Jefferson County, Kansas.

Loca I Department.

JOHN W. DAY, Local Editor.

JOHN W. DAY, Local Editor.

PIENT—In Literature, to leave no province unrepresented, so that while each number will contain articles of an abstract and permanent value, it will also be found that the healthy appetite of the mind for entertainment in its various forms of Narrative, Wit and framer, will not go uneared for. The publishers wish to say, also, that while native written will receive the most solid encouragement, and will be mainly relied on to fill the pages of the Aralasmire, they will not healtact to draw from the foreign sources attacher command, as occasion may require. In this way they hope to make their Periodical welcome wherever the English tongue is spoken or read.

Secons—In the term Aur they intend to include the whole domin of asthetice, and hope gradually to make this critical department a true and fearless representative of Art, in all its various branches, without any regard to prejudice of what I had seever to be the American idea. It will deal frankly with persons and with present endeavoring always to be the American idea. It will deal frankly with persons and parties, and which stanseemed all persons and they subjoin a last of literary persons interested in their enterprise; wishing it, however, to be distinctly understood, that they shall be open or their columns, and in the remuneration of which they shall be guided purely by their sense of interestive and they shall be guided purely by their sense of interestive and they shall be guided purely by their sense of interestive and they shall be guided purely by their sense of interestive and they shall be guided purely by their

a bright bonfire in the centre of the Public Square sent an effulgent light throughout the Village, and several buildings were illuminated, in honor of the election of Abraham Lincoln to the Presidency. Two or three brief speeches were made, and everything passed off in the most lively manner. One of the best things of the occasion was a short Union speech by W. N. Allen, Esq., a Breckinridge Democrat, in which the speaker paid a handsome compliment to the new President. compliment to the new President.

LICEUM.-We are authorized to announce, that there will be a meeting at W. C. Barnes School House on Friday evening, November 23d, for the purpose of organizing a Lyceum, or Literary Society of some kind, by which a portion of the long winter evenings may be passed both pleasantly and RAILROAD profitably by those who may attend its meetings.

We hope the meeting will be largely attended, both by ladies and gentlemen. Gentlemen, bring the ladies. Ladies. if the gentlemen have not sufficient galantry to call for you, show your independence by coming without them.

REV. L. B. STATELER will preach in the M. E. Church in this place, on Wednesday, Nov. the 21st at six o'clock P. M.

-that being the 26th inst.

La We return our thanks to Hon. MARCUS J. PARROT. for valuable public documents.

THE TAX PAYERS of Jefferson County urer's advertisement in another column. The taxes are now due and the Books are open for their collection.

STINSON & HAVENS .- It will be seen be referring to our advertising columns, that the firm of Johnston, Stinson & Havens, Attorneys-at-Law, Leavenworth, has been dissolved, Judge S. W. Johnston retiring. STINSON & HAVENS is the style of the new firm. They are energetic men, well versed in legal lore, and business entrusted to them will be promptly and faithfully transacted.

THANKSGIVING DAY .- It will be seen by referring to another column, that the Governor has issued his proclamation, setting apart Thursday, November 29th, as a day of thanksgiving and praise. Let the people of this vicinity observe that day with due reverence.

EUREKA MILLS -We were shown through these flourishing steam Mills the other day, by the very gentlemanly and accomodating proprietor. John C. BURNETT. We feel justified in saying that there are no mills in this County, and perhaps we might include adjoining Counties, that do as lively a business as these. They are running every day. either grinding or sawing, and frequently both at the same time. Mr. B. gives employment to more men than any other man in this vicinity. We are inclined to say of these mills as a lecturer once said of "whiskers"-"they are a good institution." By the way, Mr. Burnett makes the best buck wheat flour we have had the pleasure of using for a long time. Hot "buckwheat cakes and 'lasses,' are luscious at this season.

We direct the attention of those concerned to the Sheriff's new advertisements in this number.

THE U. S. MARSHALL, advertises certain lands for sale. Persons having the "spondulicks" may do well to attend his sale, the time of which will be seen by referring to the advertisements. of Jefferson and Jackson Counties. 3tf 11 u

the minunatic poison of FEVER AND AGUE from the system and prevents the develop-ment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in billous districts, where Fryan AND Aque prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it pro-duces no quinism or other injurious effects whatever upon the constitution. Those cared by it are left as healthy as if they had never

Fever and Agne is not alone the consequence of the minematic poison. A great variety of disorders arise from its irritation, among which disorders arise from its irritation, among which are Neuraigia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asth-ma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cura" expels the poison from the blood, and consequently cures them all alike It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the in-fection, that will be exercted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy af-

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely witnstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costingness, Hearthurn, Headache arising from disordered Stomach, Nansea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appelite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country alounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what autidote to employ for the distressing and dangerous effections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
